Mac OS

Wi-Fi Connectivity via Windows or Mac

Connecting to ihnyc-device

You must register your device through the device registration portal before it can be joined on the ihnyc-device network. The portal is accessible only after connecting successfully to the ihnyc-secure Wi-Fi network on another device.

1. Open the web browser and go to the site <https://wifi.ihouse-nyc.org/device-registration>

2. On the registration portal, enter in the same username and password used for accessing ihnyc-secure.

A screenshot of the login portal interface. The page title is "Status - Login". Below it, the heading reads "Login to manage registered devices". There are two input fields: "USERNAME" and "PASSWORD". The "PASSWORD" field has a "SHOW" button to its right. At the bottom, there is a large grey "Login" button.

- a. Enter in your username as first name, period, last name (example: john.doe)
- b. Enter your entry ID as your password

Wi-Fi Connectivity via Windows or Mac

3. A list of currently registered devices under your account will appear. To register a new device to be used on ihnyc-device, choose Register another device

Your registered devices

OS Type Windows OS Computer name [REDACTED] MAC [REDACTED] Registered on 2020-06-10 15:38:14	Unregister Declare as lost or stolen
OS Type Mac OS X or macOS Computer name [REDACTED] MAC [REDACTED] Registered on 2020-06-09 17:56:53	Unregister Declare as lost or stolen
OS Type iOS Computer name [REDACTED] MAC [REDACTED] Registered on 2020-06-09 17:11:41	Unregister Declare as lost or stolen

Register another device

Logout

4. Enter in the Device MAC address, a unique 12 character identifier, typically found in the network settings of your device, or sometimes printed on the outside of your device. Click Register to accept.
