Resident Cleaning Program

We have a Pay for Service Program available to all Residents should they desire cleaning services for their personal spaces and common areas. The services are performed by our in-house housekeeping staff and the fees are added to the Resident's financial bill by the Bursars Department. If suitemates agree to split the fees for the common areas, this will lessen each persons amount and make the service an even greater value, however the charge will be billed only to the resident placing the service request.

The date and time of the service is completely up to the Resident or Residents, and the housekeeping team will do their best to accommodate the date and time for your service request.

Pricing of Services:

- **KITCHEN ONLY CLEANING (NORTH) = \$95**
